RESPONSE TO REQUEST FOR RESOLUTION

Please check the appropriate blank below, either accepting or rejecting the Association's Request for ADR, and sign and return this form within thirty (30) days of receipt of the attached Request for Resolution. By accepting the Association's Request for Resolution, you are stating your disagreement with the Association's position and a desire to dispute the Association's proposed action before either an arbitrator or a mediator in an attempt to resolve this dispute.

In the event that ADR is accepted, an arbitrator would hold an informal hearing where evidence was presented and arguments were made by each side to this dispute. A mediator would meet with both parties in an even less formal setting to discuss the issues and positions of each party. In either event, the decision made by the arbitrator or mediator would not be binding on either you or the Association. The costs of the mediator or arbitrator would be split equally between the Association and you and must be paid in advance of the proceeding. In the event that this matter is eventually litigated, however, and the Association prevails, the Association would seek recovery of the expenses associated with ADR in addition to its fees and costs for litigating the matter.
